

Finance Student Assistant

About Maki

Maki has been a Nordic toy distributor (B2B) for more than 20 years and is today firmly established across the four Nordic countries. We now count more than 80 employees with the majority working out of our Danish HQ/warehouse in Silkeborg, but within a year we will relocate to Hørning, close to Aarhus where we are building a new and modern Headquarter. Today, we represent some 75 brand owners and suppliers and approx. 120 active brands.

We are on a growth ride - managing not only to grow consistently over two decades but even accelerating the past three years where growth has been double-digit. The growth has been all organic as we successfully have added new important brands every year and see very little churn.

We expect the double-digit growth to continue, organically via product/brand and geographical expansion as well as through selected strategic acquisitions. Since last year, private equity fund Capidea has been the majority shareholder in Maki.

Where do you come in?

We are looking for our first Finance Student Assistant - someone with flair for numbers, data, analysing, automating, structuring and possibly is a little bit “nerdy” about all sorts of technology and applications. We have only just started using technologies like e.g. Power BI and Power Automate so maybe you would like to venture into these?

We will put you in charge of your own tasks but don't be surprised if you suddenly find yourself working on projects with teammates from both inside and outside Finance. From time to time, you will also be in direct dialogue with business partners, customers, etc. Here is what we imagine:

- Assist with various accounting and month-end tasks
- Managing the Travel & Expense process, introducing new employees to the expense app
- Exchanging data files between Maki and some of our business partners
- Taking part in analyzing the numbers and financial controlling
- Be part of report and tool building in Excel and Power BI
- Be part of investigating and developing software robots (Power Automate)

We will of course be there to guide and support you all the way. So what do you think? – couldn't this just be the perfect steppingstone for your future career in Finance, either at Maki or elsewhere?

Are you the one?

- You are a couple of years into your studies - late BA or ideally in the beginning of your MA
- You have a strong interest in Finance, Accounting, Financial management or similar.
- You want to put your skills into practice and are curious to learn the trade in Finance
- You are an ambitious, solution-oriented and joyful team player
- You are proficient in Excel (or Google sheets) and curious for more.
- You are fluent in Danish and English – and not afraid to pick up the phone and talk with a customer

We offer

- A student job with loads of flexibility and learning potential
- We imagine you working an average of 10-15 hours a week, maybe half on-site and half remote
- Ample opportunities for getting hands-on experience as well as being part of cool projects
- An “everyone knows everyone” culture with lots of smiles and joy
- Employee discounts, fruits, coffee and with nature just outside the window and from next year we also offer lunch arrangement
- Future career opportunity for the right candidate

Come join us

At Maki, we are committed to providing an environment of mutual respect where equal employment opportunities are available to all applicants. We encourage all relevant applicants to apply regardless of race, gender, religion or belief, national origin, age, sexual orientation, disability or any other status.

We close the position when we have the right candidate so if you find the position interesting, do not hesitate to send your resume and cover letter to jobs@maki.dk

If you have any questions for the position, you are welcome to contact Head of HR, Kathrine K. Thorgaard at -45 25 47 20 15.
